# ***YEAR BOOK***

### **Something I would like do again :**

Two years ago, I did drama as i was in year 8. It was an unforgettable experience for me because it allowed me to express myself and developped my sense of humor. I learnt how to be more confident and less shy. I'd like to come back into the past and live this moment again. I would also like to go back to the European class in year 9 when I had to tell the news and film myself. I love videos and so does my friend. We had to present the news just like journalists and we did it with humor.

## **My best friend :**

Maxime Breton is my best friend. He's 15 years old. His birthday is on the 13th of March. He lives in Septeuil. His father is Dominique and his mother is Christine. Maxime has got a little brother. His name is Guillaume. He's got a cat, Cookie. Maxime practises karate. His favourite color is blue. His favourite food is chicken and chips. He plays the piano. He likes watching videos and films.

### **Favourite subject :**

I don't really have favourite subject, but I think I prefer History and Geography because it's important to know what happened before. And then, in Geography, we talk about politics and politics is interesting to me. It shows everyone how we can live in any situation. To conclude, I like these subjects because I've got a good teacher.

### **Advices :**

From my own experience in 3°, I advice you to do your homework early. And then, I advice to do them in advance because sometimes teachers give a lot of work and you can be overwhelmed. I think you must'nt sleep very late because I tried it and I wasn't very well. Finally, take this year easy and don't be afraid of the exams.

## **Interview Mr Raymond**

I've interviewed Mr Raymond, my principal. He studied electronics and automatics the first years after the a-level before becoming a teacher. He does his job since 10 years. He likes develop projects and ensure the success of each students. But he doesn't like don't find solutions for difficult situations. It's frustrating ! His favorite subjects are Science and Maths but not French. To finish, he said to me he was a good pupil.

## **Interview Mr Domenech**

I've interviewed Mr Domenech, a sport teacher. He entered the Fac in Lyon, a STAPS. He did the contest of CAP Physical Education. He was a director of summer camp. He works in the Collège Georges Pompidou since 6 years ago. He likes Physics and other subjects, apart Arts. He chose this school because of the contest results and because it's not too far.

### **Activities :**

In the college Georges Pompidou, there are many sports activities proposed by the Sports Association. You can practise sports ball like futsal and volleyball, or you can do sports of racket. For exemple, there are badminton and table tennis. The middle school propose also gymnastics. Apart sports, there are extra-curricular activities. You can join a drama club, a choral group and other activities with computers in the multimedia room.

My friends  
signatures

A green scribbled signature, possibly reading "Alex", with multiple overlapping strokes.A blue signature that reads "Bret" with a crown drawn above the letter 'M' and a long horizontal line underneath.A red scribbled signature, possibly reading "M", with multiple overlapping strokes.

Antoine

Emilie Gony

Rosiaux

Merci beaucoup  
Julien d'avoir été  
l'élève que tu es.  
Reste toi. Garde cette  
attitude posée qui est  
tienne. Bon courage  
et bonne chance  
pour la suite. Reviens  
nous voir de temps à  
autre.

I. Lefebvre
