GEAR BOOK

Something I would do over again:

"The moment I'd like to do over again is the first day of this school year. I can remembe I was a bit stressed to go back to school after the summer holidays. I woke up twenty minutes earlier to get ready that da and I was excited. I ran all around the hous to make sure I hadn't forgotten anything. despite my fears, I was really looking forward to discovering my class and new friends.

Once my brother and I were done, my mur drove us to school. I thought I had dreamt this moment and this had eventually come for real. we arrived at school and I saw all the other pupils. my mum kissed us good bye and wished us good luck. I walked in. I can't forget this moment. my heart beat s fast. My fears became joy and happiness. I met my new friends.

I will keep in mind the beginning of this school for the rest of my life."

Advices for next year's 3ème students

For next year's 3ème students, I advice to participate a lot to understand and learn easily at home. Also, you have to know your lessons to succeed. Indeed, the more you work regulary, the more your marks will be better. Then, you must listen carefully and above all don't chat. Next, if you don't understand something, don't be afraid to ask your teacher. Don't forget your final exam and to do the best in all you can do. Finally, try hard to be concentred and to keep a good behaviour because the fourth year is very important for the rest of your studies.

My favorite subject:

I haven't got a favorite subject but a lot. I like History, English, Maths and Music. Maybe, my favorite subject is History, I think so. History is things very interesting. I learn a lot of things about the past and recent events. I learn the story of my country, the world's evolution. I think the greek and Roman's mythology are very interesting too.

A.S. activities:

In our school "Georges Pompidou", we have got many activities. Indeed, we can practise many sports with yhe A.S. like futsall, badminton, voleyball, gym, dance, pingpong... Futhermore, there are other activities like drama and choir. These activities are free or inexpensive. They are generally avaible at the end of the class.
